games, interactivity/coding, wireframing &
prototyping for mobile

PROGRAMS/PROFICIENCY:

Adobe Suite (Illustrator, InDesign, After
Effects), Sketch, Principle, Framer, Blender,
Javascript/C++

Do Ze

多謝 (do ze/doh jie) is a speech-controlled narrative which presents a difficult but transformative memory from varying perspectives.

多謝 presents gaps between different characters' experience to present what is not immediately apparent.

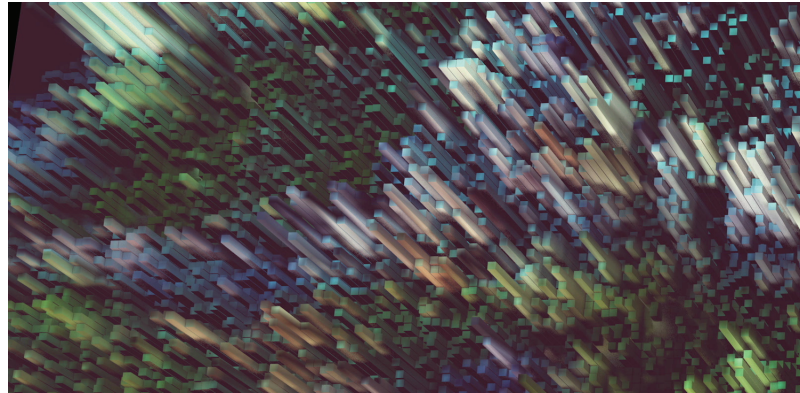

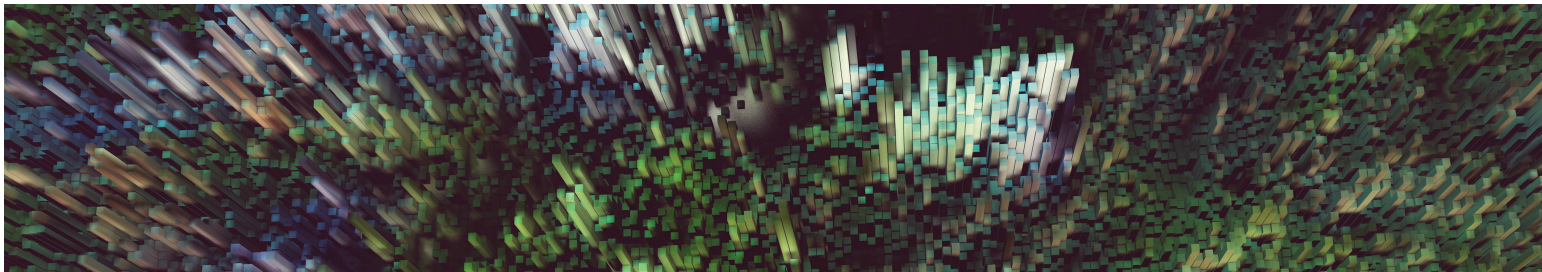

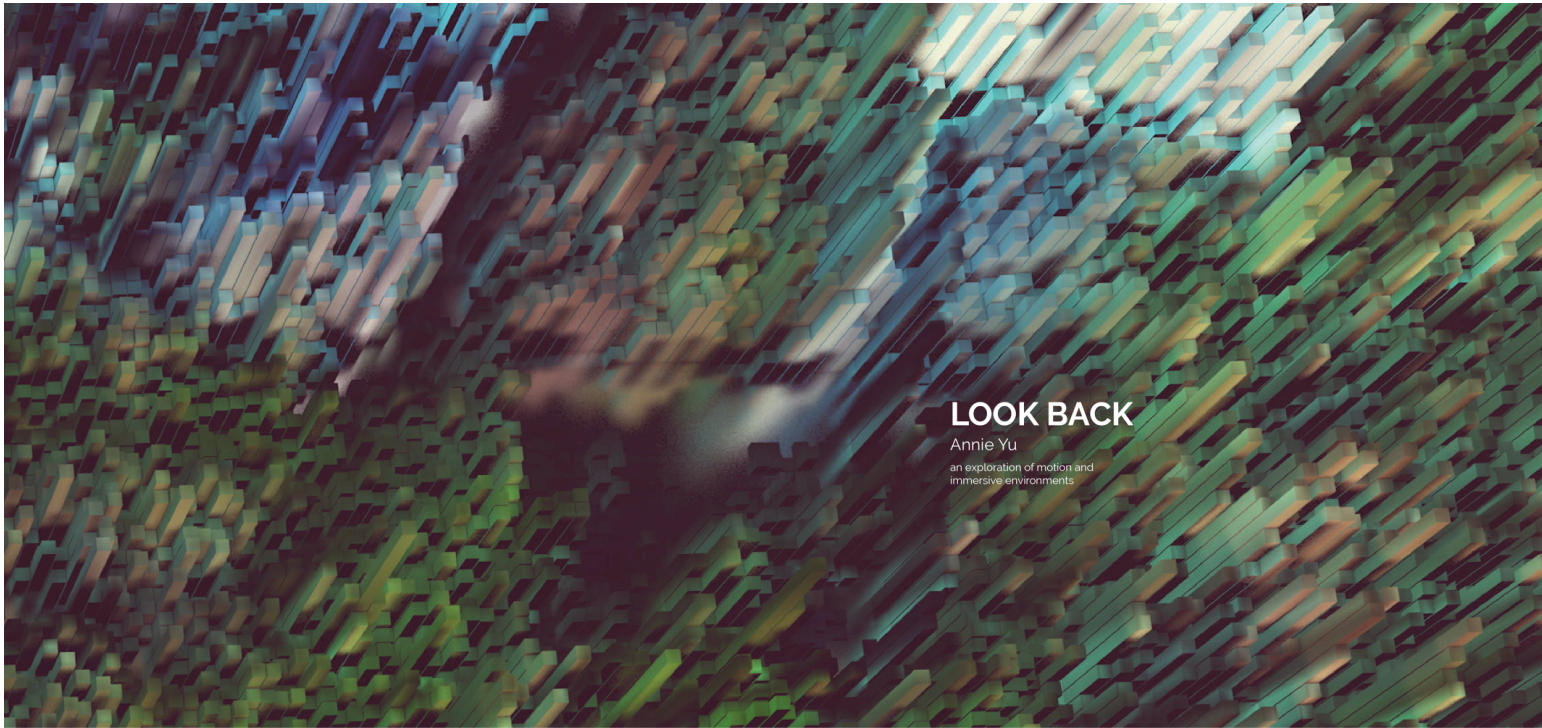

Dad

Do you know what you would want to do?

 "...I want"

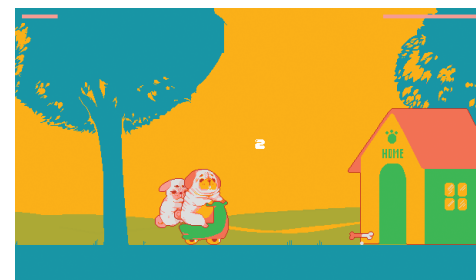

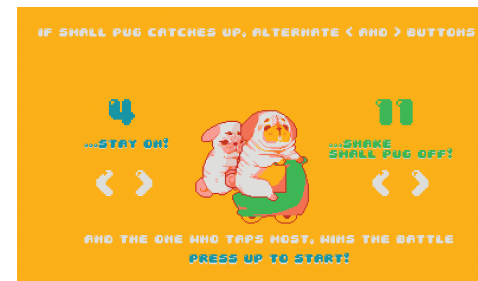

多謝
(thank you)
